PROSPECTUS

Tribhuvan University

Academia International College

Academia International College is one of the premier institutions dedicated to providing quality education in a fully-integrated, multicultural environment. The College occupies a spacious area at Lalitpur with excellent facilities. In our Graduate School, we are one of the pioneer institutes in Nepal to introduce the B.Sc.CSIT program offered by Tribhuvan University. Academia International College is committed to achieving excellence in the academic development of students and professionals. We strongly believe that the Academic programs at Academia is going to acquire a distinguished reputation of being the most rigorous and fulfilling course in the category.

Our education system must evolve to keep pace with mighty changes occurring today in business, industry, and society. Students must develop attributes and knowledge beyond traditional constraints of the classroom. Education System must be designed to accommodate current trends and future needs. It must create more connections and stronger partnership with the global society in which we are embedded. Our goal is to articulate the role of education in the early part of the 21st century and to establish design specifications that will enable our students to be a leader in shaping the future of the world. As such we have an obligation to address the full range of higher education, namely: teaching and learning, research, and service to the community. Indeed these three elements must be totally integrated if we are able to be effective in the pursuit of our mission.

VISION

To be a reputable and credible college, producing quality graduates at a competitive level in line with the international education philosophy.

MISSION

To serve society and enhance the quality of life through excellence and leadership in vocationally and professionally relevant education, research and consultancy, as an academic community which is outward looking and committed to innovation and lifelong learning.

VALUES

We're proud of what we do – we act sensitively with the highest standards of integrity and social responsibility. We are restless, always learning, always improving. We constantly set high standards and then try hard to exceed them. We deliver results, win where we compete and celebrate our success. We value each other – we seek and benefit from diverse people and perspectives. We strive to create mutually fulfilling relationships and partnerships.

Education at Academia

“ The colleges provide the hub to the personal contact that is the distinguishing factor that marks out education at the **Academia International College**. ”

Our personal approach starts when we select students and continues throughout the duration of their courses. The pace of learning at Academia International College is intense. Not only is the pace of learning intense, but course contents can challenge even the most talented students. Of course, we try to select students who we believe can meet the challenge.

You will be encouraged to work closely with your program Coordinator, whose responsibility is to oversee students' progress over their courses and organize college teaching. Normally you will have monthly supervision in all the major topics covered by your university course and each teacher writes a report on your program each term. This helps Program Coordinator and tutors to monitor your progress.

Academia International College is a mid-sized college that is big enough to provide diversity in its students. You at Academia can take advantage of other resources provided by the College. You will be provided with an Academia International College email account which you can use to communicate with us. The subject teacher submits their reports on-line and you can read your own report from a secure college website as soon as it has been approved.

Academia International College has well-equipped computer rooms (connected with network teaching resources provided by the college) with computers, up-to-date scanners and printers. You can bring your own computer to college as all rooms have connections for high-speed Wi-Fi internet access.

The College Management each semester makes sure that the library purchases up-to-date textbooks and periodicals related to degree reading lists. You are welcome to make purchasing suggestions as well.

You at Academia can also benefit from different training programs offered by Academia Research Cell (ARC), like:

- a. HTML/CSS/PHP/Laravel
- b. Java
- c. .Net
- d. Python
- e. Mobile Apps Development
- f. Computer Hardware Training
- g. Tally
- h. CV Writing/ReportWriting/ Thesis Writing Skill
- i. Business Proposal Development
- j. Public Speaking Skill/Personality Development Training

- A minimum of second division mark in CTEVT Examination with **Physics** and **Mathematics** (100 marks). **and**
- Pass the entrance examination conducted by Institute of Science and Technology (IOST) TU.

Career Prospectus

What makes our CSIT graduates even more tempting is the career prospect and pay grade that they get with it. In fact, the Future of Jobs Report by the World Economic Forum shows that by 2022, companies are likely to adopt technologies that require definitive qualifications that come with a computer science degree. If that isn't enough to convince one, Forbes has rated job candidates with computer science degrees as one of the top 5 highest paid jobs. Furthermore, data science, which is a part of computer science degrees, is said to be among the most promising careers in the near future.

Moreover, as a CSIT graduate, one can become a software developer, web developer, database administrator, data analyst, SEO specialist, game developer, to name a few. We are proud of our Alumni, where many of our graduates are nation's emerging entrepreneurs running their own software companies.

Applying to Academia

Academia International College prospers on diversity. It provides an environment in which academically able students, from whatever background, can be happy and flourish.

Finding out more: Visiting the College

If you want to find out a little more about us, your prospective course and the college then there are several things you can do.

There is no doubt that the best way to have all your questions answered and to get a real feel for the place is to visit our college Admissions Open Days. The details are posted on our website (www.academiacollege.edu.np). In addition, the College Website and Prospectus also contain detailed information about the course and the specification requirements, if any, for admission to the course. A typical Open

day will give you a chance to meet several people who, like yourself, may be thinking of applying to Academia International College, as well as our Academia Councilors who will be there to give you a guided tour of our facilities. On these occasions it is possible to see student rooms as well as other facilities, such as the computer room, the library etc.

You will have a chance to talk to the Admission Officer that might interest you and, as a result, you should be able to form a good idea of the course and the way that the College will help you to get the most out of you.

Web and Other Resources

The Academia International College web site www.academiacollege.edu.np has a number of information that may be of interest.

All enquiries for admission should be addressed in the first instance to the Admission Officer.

The address, telephone number and the email address are:
